

Charter Chatter August

ACES Monthly Newsletter

Notes from the Executive Director, Christy Takacs

As you are meeting with your stakeholders and making decisions about how to spend your ESSR III funds, I wanted to make sure you have a list of our current Procurement Contract Partners! ACES has quite a few options that provide you access to vendor services and products at a discounted rate for member Charter Schools. Utilizing the procurement contracts through ACES alleviates the need for your school to put out an RFP for services and products that exceed the \$60k threshold. Reach out to us if you have any questions. We are here to support you!

ACES Cooperative Purchase Agreement Partners
