

# Charter Chatter January 2022

Association of Charter School Education Services

## Notes from the Executive Director, Christy Takacs

We are excited to share that approximately 20 charter schools are joining in on our Food Service RFP's! If you are interested in participating, THERE IS STILL TIME! Our hope is to publish mid-February, so let us know ASAP if you would like to join. As you will see below, we will be publishing any upcoming RFP's with Bidnet Direct. Our hope is that this will streamline processes, ease the burden of the evaluation committee, cast a wider net for interested vendors, and create more choice for services for our member schools! Be sure to check it out and let me know if you have any questions.

## Amber Le

We are sad to say that Amber Le will be leaving ACES in just a few weeks. Amber has worked for ACES for approximately 5 years and has done an incredible job! Over the years, she has run the Maintenance Program for three of our charter schools and managed our Substitute Program in Albuquerque and Employment Services, for most of that time. Amber has brought structure, consistency, commitment to quality service, and dependability to the schools she serves. It will be difficult to fill her shoes! We are actively seeking someone to fill her position immediately. This is a part-time job, ~60 hours per month, with pay averaging about \$25/hour. If you know of someone who might be a good fit, send them our way! Amber, thank you for all you have done for ACES. We will miss you!

## Preferred Vendor Highlight

**Amairify** is leading the way to prevent and combat existing and emerging bio-threats by implementing a new standard of clean. We provide Air and Surface Protection products and services that keep your facilities safe for staff and students to get back to learning. Our Bio-Consultancy firm works directly with you and your existing infrastructure to provide you with the materials and training necessary to implement a cleaner protocol for your school. Our New Mexico General Services Division approved product offering is available for purchase, or we can provide your school with trained professionals to perform the deep cleaning protective services. Additionally, our network of professionals will design, install, and service HVAC systems and integrate proven Clean Air Purification Systems (Ionization, UVC, Air Scrubbers, etc.), which serve to eliminate airborne biological threats.
