▪ ASSOCIATION OF CHARTER SCHOOL EDUCATION SERVICES ▪

CHRISTY TAKACS, EXECUTIVE DIRECTOR

Happy Fall! ACES is excited to announce that we have added 8 new contracts to our Cooperative Purchasing Partner list for HVAC, Refrigeration, Plumbing, and Electrical Services! We have highlighted all of them this month. Each of our new partners provide a variety of services, offer a wide range of coverage across New Mexico, and are excited to work with our member schools! We have included contact information for each vendor. Next up in our Procurement lineup will be soliciting for Security Systems to include services such as Fire, Intrusion, Access Control, Gun Detection and Intercom systems, just to name a few. Please let us know of vendors who you currently work with that might be interested in submitting a proposal. As always, please reach out to me if you have questions. We are here to help!

B&D INDUSTRIES, INC.

FRISBIE HEATING AND COOLING

Located in Taos, NM Frisbie Heating & Cooling is a locally owned and operated HVACR service and installation company. Owner Matt Frisbie has 23 experience in the HVACR field. We are a fully licensed, bonded, and insured HVACR contractor in the state of New Mexico. Much of our work focuses on service and repair of commercial HVAC equipment. We are also experienced in servicing and installing commercial kitchen refrigeration and cooking equipment. Many of our customers have benefited from enrolling their equipment in a regular preventive maintenance program. In so doing, they avoid costly repairs and downtime. Our goal has always been to exceed the customers expectations. We look forward to working with you.

PC AUTOMATED CONTROLS, INC.

Founded in 1993, PC Automated Controls offers Heating Ventilation Air Conditioning (HVAC) solutions to West Texas and New Mexico. Our objective with school campuses is to ***Reduce Owning and Operating Costs.*** We accomplish this objective by means of:

1. implementing high level HVAC Service Programs which pay for themselves from existing budgets. Frequently these programs reduce HVAC Owning and Operating Costs upward to 30%. HVAC Program accomplish:

- a. Increased Equipment Operating Efficiency
- b. Extending Equipment life
- c. Minimizing Equipment Breakdowns
- d. Sharing Financial Risk
- e. Increasing Facility Air Quality

2. Installing Energy Management and Control Systems.

PC Automated Controls, Inc. will provide a "no charge" financial analysis to determine how much a campus' Owning and Operating Cost can be reduced either by implementing our HVAC Service Programs or installing an Energy Management and Control System.
